

I am aghast to hear about the pressure Sinclair Broadcasting is putting on their stations. The decision to force airing of an anti-Kerry documentary days before the election is just wrong.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Airing a one-sided piece -- indeed, a hit piece -- is emphatically NOT in the public interest.

Please stop Sinclair's action before it happens, and consider my remarks advance protest when their license comes up for renewal. Thank you.
